License Agreement

The following license agreement (hereinafter referred to as the "Agreement") is between Webtex Software (hereinafter referred to as the "Vendor") and company or person purchasing Vendor's software (hereinafter referred to as the "Client"). This agreement applies to all extensions, software, code, scripts (hereinafter referred to as the "Software") the Client purchases from Vendor.

General
By purchasing the Software the Client is asserting with the below-stated Terms and Conditions of the present Agreement, and agrees to use the Software in compliance with this Agreement. The Agreement comes into legal force at the moment when the Client orders Vendor's Software from Vendor's website or receives it through email or on any storage device.

Copyright
Vendor is the copyright holder of the Software. The Software or a portion of it is a copyrightable matter and is liable to protection by the law. Any activity that infringes terms of this Agreement violates copyright law and will be prosecuted according to the current law. Vendor reserves the right to revoke the license of any user who is holding an invalid license.

License
This Agreement gives the Client the right to use only one copy of the Software on one domain solely for Client's own personal or business use, subject to all other terms of this Agreement. A separate license should be purchased for each new Software installation. Any distribution of the Software without Vendor's consent, including noncommercial distribution is regarded as violation of this Agreement and entails liability, according to the current law. The Client may not use any part of the Software in any other software product or website. The Client may not give, sell, distribute, sub-license, rent, lease or lend any portion of the Software or it's documentation to anyone. The Client may not place the Software on a server so that it is accessible via a public network such as Internet for distribution purposes.

Liability
The Vendor reserves the right to publish a selected list of users of Vendor's Software. The Vendor will not be liable for any damages (including any loss of profits/savings, or incidental or consequential) affected the Client, Client's information or business arising out of the use or inability to use the Software, purchased from the Vendor. The Vendor is not liable for any prosecutions arising from use of the Software against law or for any illegal use.

This Agreement
If the Client fails to use the Software in accordance with the terms and conditions of this Agreement, it constitutes a breach of the agreement, and the Client's license to use the Software will be revoked. The Vendor reserves the right to change this Agreement and to impose its clauses at any time. This Agreement remains effective until terminated. The Vendor retains the right to terminate Client's license to use the Software at any time, if in its sole discretion, the Client is not abiding the terms of this Agreement, including, but not limited to, obscuring or removing any link or copyright notice as specified in this Agreement. The Client may terminate it at any time by destroying all copies of the Software. Termination of this Agreement does not bind the Vendor to return the Client the amount spent for purchase of the Software, unless the Client claims the refund within 30-day period from the day of purchase.

Software Support Policy
The Vendor shall provide the Client with customer support and Software updates free of charge. The Client is entitled to report any errors and bugs he experiences while using the Software.

Return Policy
The Client may request a full refund for Software, purchased from the Vendor, within a 30-day period from the day of purchase. Within 5 days after the Vendor sends the refund to the Client, the Client is legally obliged to uninstall and remove the Software. Following services are non-refundable: Magento installation services, design services, search engine optimization services, Magento customization services.

Extension Description

Prices per Customer extension does quite simple but useful things: it allows admin to specify different product prices for every customer. Now you can run more targeted marketing, sell products by different prices for different customers, motivate your customers and even provide specific discounts for the most loyal customers.

As an addition, the extension allows you to hide the prices from not logged in visitors. They will see the message "You should login to see the prices" and will be forced to login or register to purchase from your store. This great motivation tool is in your store now.

Features

- You can specify its own price for every customer per product level.
- You can specify individual special price for your products for every customer.
- You can hide product price from not logged in visitors.
- You can enable/disable the extension from the back-end.

Extension Installation and Configuration

1. Unpack and copy all extension files to the Magento root folder.

2. In Magento Admin Panel navigate to *System→Cache Management*. Select and refresh all cache types.

3. Navigate to *System→Configuration→Webtex→Info* section. There you should find Prices by Customers extension in the list of installed extensions.

4. This is it! Extension has successfully been installed.

Working with the Extension

1. Prices per Customer Front-end

There is nothing different on the front-end. No templates modifications, layout changes and other modifications that can break your Magento design. Customers just see different prices for your products specified in the back-end or visitors see the message that hides product price and force them to login. Correct prices will be displayed in all the places on the front-end. Price ranges in filter of Layered Navigation will be re-built too.

2. Prices per Customer Back-end

There are only 2 settings available in System – Configuration – WEBTEX – Prices per Customer:

Enable – it enables/disables the extension. Now it's quite simple to just turn it off if necessary or run it again.
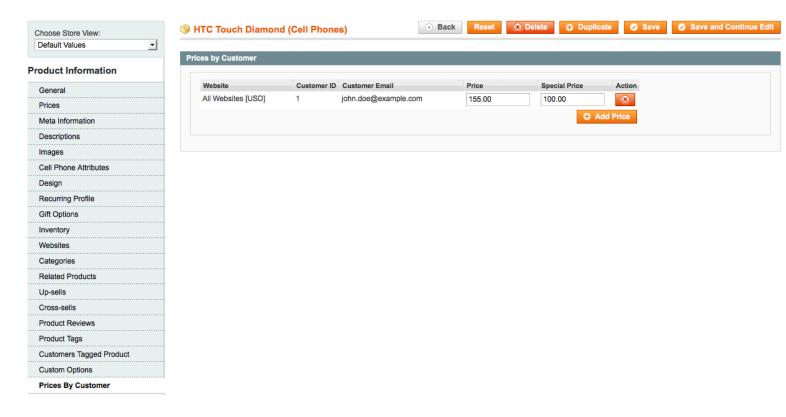

Hide prices for visitors – if enabled, all product prices will be hidden for not logged in visitors and the message "You should login to see the price" will appear. "Add to cart" button will be hidden as well.
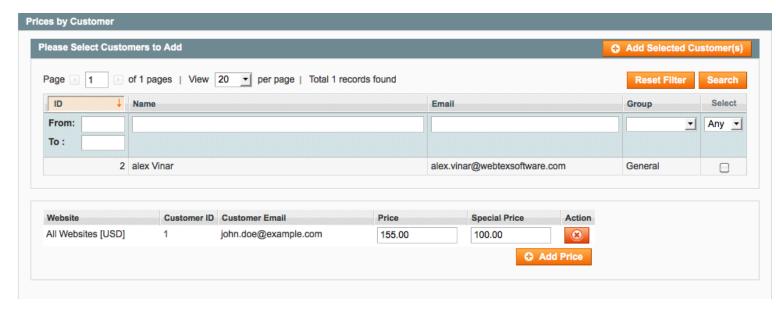

WEBTEX
SOFTWARE

To specify the prices for each product you should go to Catalog – Manage Products – select a product – "Prices per Customer" tab. You will see the table with customers and their prices.

If you need to add a customer, just click on "Add Price" button. Customers' grid will appear:

Just select necessary customer(s) and click on "Add Selected Customer(s)" button. This will add selected customer(s) and will give you the ability to specify necessary prices for them.

You can also filter customers by ID, Name, Email and Customer Group while selecting them.

You can Export/Import prices in System->Import/Export->Prices per Customer

Prices per Customer Export   Reset   ⊘ Export Prices

Export Settings

Path to file *	/var/customerprices/customerprices.csv
Value delimiter *	;
Enclose Values In *	"

That's all. So simple that just can't fail ☺

Getting Help and Support

All our extensions come with free customer support and future extension updates.

If you've stumbled upon any issues during work with our extension, feel free to send us a message through our contact form: http://www.webtexsoftware.com/contacts, or by email: support@webtexsoftware.com.

If you need some special functionality to be created, please let us know at sales@webtexsoftware.com. We'll do our best to help you!
